PROJECTS

MediQueue - Tutor Booking Platform

[Live Demo](#) || [Client site](#) || [Server site](#)

MediQueue is a modern, premium, and fully responsive Tutor Booking Web Application built with the MERN stack (Next.js, Express.js, MongoDB, Node.js). It allows students to explore, filter, and book experienced tutors, while also enabling tutors to register and manage their tuition slots dynamically.

- Real-Time Search: Search tutors instantly by name or subject.
- Date-Range Filtering: Filter available study sessions by custom start and end dates.
- Tutor Details: Detailed tutor profile pages showing subject, price, experience, medium of language, and availability.

Technologies: Next.js, Tailwind CSS, Node.js, Express.js, JWT, MongoDB Atlas.

Warmhut Fashion - e commerce fashion site

[Live Demo](#) || [Github Repo](#)

Warmhut Fashion is a modern fashion e-commerce web application that lets users browse clothing collections, view product details, and enjoy a seamless shopping experience. Built with React for dynamic UI and styled with Tailwind CSS for a clean, responsive design.

- Product listing with categories and filters.
- Dynamic rendering using React components.
- Fast performance with optimized Tailwind styles.

Technologies: React.js, Tailwind CSS, CSS, JavaScript(ES6+), Netlify.
